**Listing of Claims**

1-5. (Canceled)

6. - 13. (Canceled)

14. (Original) A deck assembly for a walk-behind rotary lawn mower, the deck assembly comprising:

a deck defining a cutting chamber operable to house a cutting member, wherein the cutting chamber is bound at least in part by a rear enclosure member;

a rectangular rear discharge port located, when the mower is in an operating configuration, on a rear portion of the deck; and

a duct of substantially rectangular cross section extending through the rear enclosure member between the cutting chamber and the rectangular rear discharge port, the duct defining a duct axis that is substantially parallel to a longitudinal axis of the mower.

15. (Original) The deck assembly of claim 14, wherein the rectangular rear discharge port has a transverse width and a vertical height, wherein the transverse width is greater than the vertical height.

16. (Original) The deck assembly of claim 14, wherein at least a portion of the duct is formed by an underside of the deck.
